# OUR STORY

**At Lurano, we understand that life's most meaningful moments happen in spaces designed for connection and comfort.**

Our ethos is inspired by the effortless elegance of Mediterranean living – where terraces spill into gardens, where gatherings with loved ones stretch long into warm evenings, and where the boundary between inside and outside simply dissolves. We're dedicated to curating spaces that invite you to embrace outdoor living.

Whether we're crafting bespoke pieces or sourcing the finest products from trusted partners, every element is chosen for the same reason – to create environments where life feels more connected.

Each piece in our collection reflects our commitment to premium materials, enduring quality, and designs that balance contemporary sophistication with timeless appeal. We believe in the power of aluminium's modern durability and the beauty of thoughtful design that stands the test of time.

But beyond the materials and craftsmanship lies our true purpose – transforming how you experience your outdoor space. We're not in the business of selling furniture; we're curators of lifestyle and partners in building the backdrop for life's best moments.

**This is Lurano – where luxury lives outdoors.**

## WHAT WE OFFER

**At Lurano, we specialise in transforming outdoor spaces into beautiful, functional extensions of your home.**

Our collection includes premium decking in aluminium, composite, and ceramic finishes; elegant glass rooms for year-round comfort and stylish pergolas, verandas, and carports that add both shade and sophistication. We also offer modern outdoor kitchens for effortless entertaining, luxurious outdoor furniture crafted for relaxation and dining, and a range of accessories to complete every detail. With Lurano, outdoor living is redefined — where style, quality, and innovation meet.

Each piece combines premium craftsmanship, modern design, and low-maintenance durability, ensuring beauty that lasts season after season. Whether you're creating a peaceful retreat or an entertaining space for family and friends, Lurano helps you design your perfect outdoor lifestyle.

# OUR DECKING

Lurano decking brings style, durability, and low-maintenance luxury to your outdoor space.

We offer three premium options - Aluminium, sleek and modern; Composite, warm and natural without upkeep; and Ceramic, refined and contemporary. Each is designed to elevate your garden, terrace, or veranda, creating a perfect foundation for outdoor living.

## COMPOSITE DECKING

Experience the perfect blend of **beauty and durability** with Lurano Composite Decking. Crafted to mimic the natural look of timber, it's scratch-resistant, slip-resistant, and low-maintenance, making it ideal for outdoor living spaces.

### Angle Trim

Colour matched to your decking this unique tapered 3 metre angle trim is 30mm x 20mm and it can be used in either orientation, providing a simple yet versatile option for finishing the board edges ideal to reduce trip hazards.

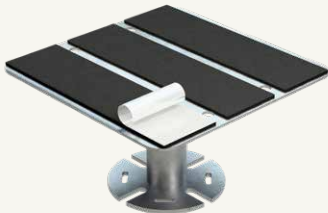

### Nosing Profiles

The Lurano Nosing Extrusion is our innovative solution for step nosing, specifically designed to provide a safe, refined, and elegant finish when decking transitions onto steps.

### Spreader Plates

This simple aluminium plate is used to spread the imposed load of the Lurano decking system when installing onto waterproof membranes. The plate can be supplied with or without fire retardant double-sided tape to enable you to bond it to the top surface.

### Fire-retardant Tape

Our Fire-retardant self-adhesive tape has been introduced for use with our Adjustable Pedestals.

### Self-drilling Screws

Our self-drilling screws are designed for quick and easy installation, offering a secure and durable fixing solution.

### End Plates

Colour-matched End Plates are available on request for all of our decking boards.

## WIND-UP PEDESTAL

Our non-combustible **adjustable pedestal system** is the ideal solution for all decking structures, whether patio areas, balconies, terraces, or walkways. Engineered for strength, safety, and flexibility, it provides precise levelling and effortless installation even on uneven surfaces.

### Specifications

## OUR ADJUSTABLE PEDESTALS

Adjustable Pedestals with Optional Carrier is a value engineered product specially designed to offer complete flexibility across an installation.

With a minimum build-up height of 26mm and a maximum of 275mm without any supporting components factored in, they're an ideal solution to create the desired varying build-up heights across a wide variety of project scenarios.

### Key Features & Benefits

- A1 FIRE-RATED**  
Non-combustible for full Building Regulations compliance.
- ZINTEK 200 COATED**  
for exceptional corrosion resistance.
- ALUMINIUM CARRIER SYSTEM**  
Optional for variable gradients.
- SIMPLE WIND-UP ADJUSTMENT**  
for quick, accurate levelling.
- SUITABLE FOR**  
balconies, terraces, patios and walkways.
- MILL-FINISH**  
Available in mill-finish uncoated aluminium.

# OUR ALUMINIUM FENCING

A choice of 5 profile options allows you to make your divider or fencing solutions unique with all options interchangeable. Giving you complete flexibility in your design.

Built entirely from durable, low-maintenance aluminium, this fencing range offers a modern alternative to traditional timber or composite panels. Each system is designed for quick installation, long-lasting performance, and a sleek, contemporary appearance. With a choice of colours, heights, and gate options, it provides a practical and stylish solution for any residential or commercial setting.

## ALUMINIUM FENCING

Our aluminium fencing offers the perfect balance of **style, strength, and simplicity**. Designed for both modern and traditional properties, it provides lasting protection with minimal upkeep.

# OUR POLY VERANDAS & CARPORTS

Lurano's polycarbonate verandas and carports combine modern design with practical protection, creating outdoor spaces that are both stylish and functional.

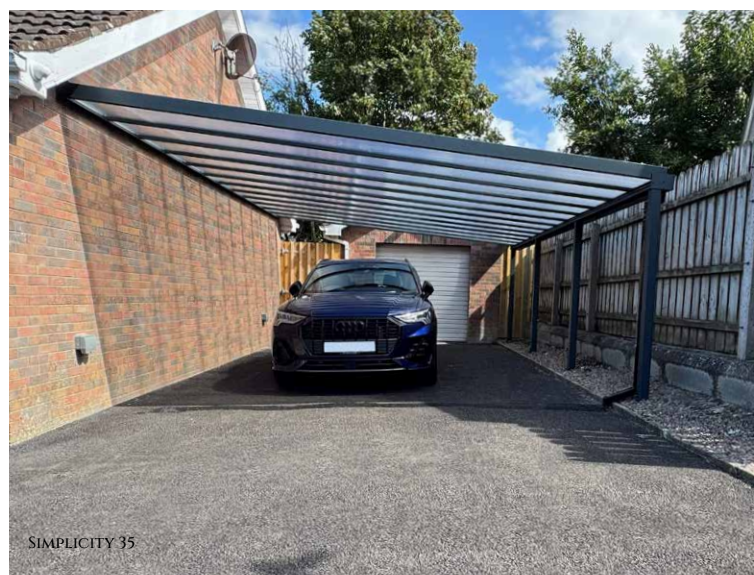

Perfect for gardens, patios, or driveways, they provide shelter from the elements while enhancing the beauty and usability of your home's exterior.

## Simplicity 16

The Simplicity 16 Carport combines style, strength, and practicality. Its aluminium frame, 16mm shatter-resistant roof panels, and hidden guttering provide a sleek, modern look with over 98% UV protection. Spanning 4m between posts with a 4m projection, it's quick to install and available in RAL 9016, 7016, or 9005, with bespoke colours on request. Backed by a 10-year guarantee and a 60-year life expectancy, it can also be upgraded with lighting, heaters, and more to suit your outdoor space.

## Simplicity 35

The Simplicity 35 Carport offers up to 6m projection with unlimited length, combining style, strength, and versatility. Its aluminium frame, 35mm shatter-resistant roof, and hidden guttering provide durability, sleek aesthetics, and over 98% UV protection. Available in RAL 7016 or custom colours, with optional lighting, heaters, and upgrades, it's backed by a 10-year guarantee and 60-year life expectancy — the ultimate solution for elegant, long-lasting outdoor shelter.

# OUR GLASS ROOMS

Lurano Glass Rooms transform your garden into a stylish, year-round retreat. With sleek aluminium frames and toughened glass panels, they bring uninterrupted views, natural light, and seamless indoor-outdoor living. Perfect for relaxing, dining, or entertaining, each glass room combines modern elegance, durability, and comfort, creating a versatile extension of your home.

## Simplicity 6

The Simplicity 6 Glass Room features 8mm toughened sliding glass doors that glide smoothly on integrated runners, offering uninterrupted garden views while protecting you from the elements. Open fully or partially for year-round flexibility. Ideal as a cost-effective home extension, it comes with discreet integrated guttering, a choice of roof panels, and fixed or sliding glass frames. With a maximum projection of 3.5m standard colours RAL 9016, 7016, and 9005, upgrades like infrared heaters and lighting create a warm, stylish retreat.

## Simplicity 35

The Simplicity 35 features a robust aluminium frame and 35mm polycarbonate roof panels for year-round protection while maintaining natural light. Add sliding doors and fixed panels to create a fully enclosed space ideal for dining, relaxing, or entertaining. With a 6m projection and unlimited length, it's strong, stylish, and low-maintenance. Available in RAL 7016 Anthracite Grey or bespoke colours, optional infrared heaters and LED lighting make it perfect for enjoying your garden in any season.

## Simplicity 16

The Simplicity 16 Glass Room features 8mm toughened sliding doors on integrated runners, offering a seamless connection to your garden or a sheltered retreat. Built for year-round comfort, it combines elegance, durability, and flexible design. Extending up to 4m, it includes discreet integrated guttering, a choice of polycarbonate roof panels, and standard colours RAL 9016, 7016, and 9005, with bespoke options available. Upgrades like infrared heaters and LED lighting create a warm, inviting outdoor space — a cost-effective alternative to a traditional extension.

## Simplicity Xtra & Xtra Plus

The Simplicity Xtra features full-glass panels and sliding doors, offering panoramic views and seamless indoor-outdoor living. Its aluminium frame and toughened glass provide durability, low maintenance, and year-round protection, while the modern design with square posts creates a bold, contemporary look. With a 4m projection, optional sliding doors, 6mm roof panels, and discreet guttering, it's fully customisable. Supplied in RAL 7016 Anthracite Grey or bespoke colours, the Simplicity Xtra is the perfect weatherproof garden retreat, dining space, or home extension.

**Enhance your outdoor living experience with Lurano Upgrades.** From integrated lighting and infrared heaters to bespoke finishes and accessories, every upgrade is designed to add style, comfort, and functionality to your space.

## Victorian

Add timeless elegance to your carport, veranda, or canopy with decorative posts, brackets, and (for 35 structures) post feet. Colour matched to your system and built from durable aluminium, the Victorian Upgrade transforms contemporary structures into classic, stylish designs. Compatible with Simplicity 6, 16, and 35.

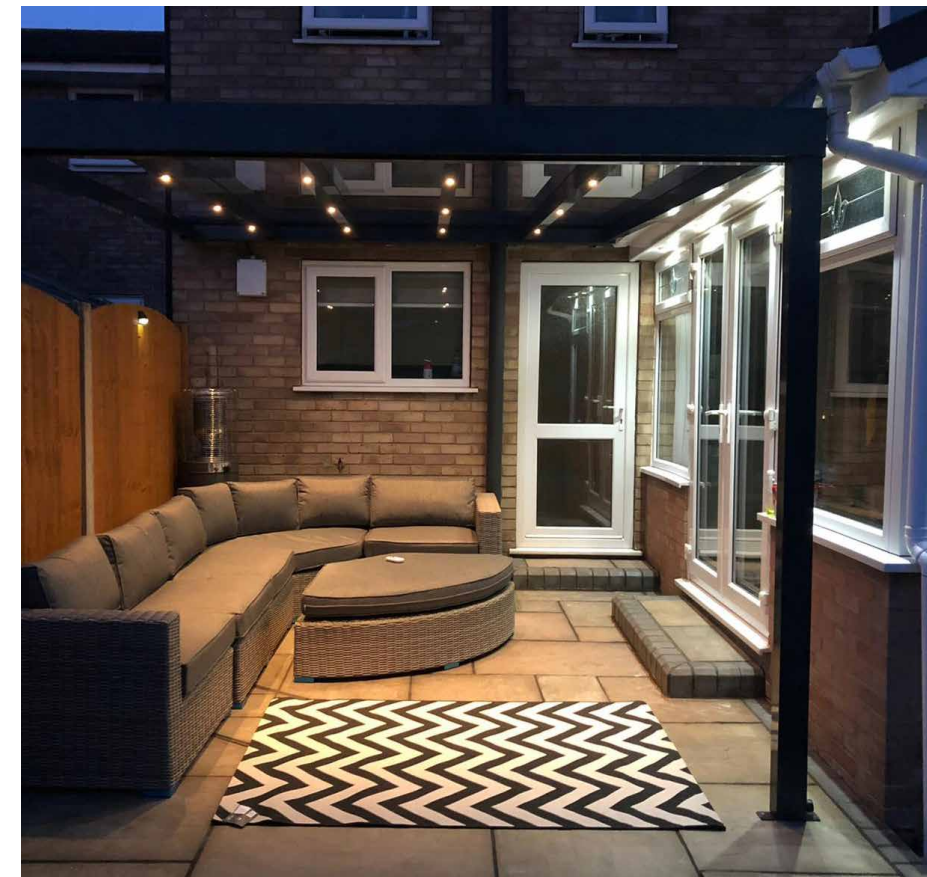

## Infrared Heating

The California Heater provides instant, energy-efficient warmth for verandas, patios, and gardens. Its infrared technology heats people and surfaces directly, with ultra-low glare for a warm, inviting glow. Built for all-weather durability, it features adjustable heat settings, a sleek modern design, and can be wall-mounted or freestanding. Available in Silver, Black, and Rose Gold, it's perfect for year-round outdoor comfort.

## RGBW Lighting

Our integrated LED lighting system is built into the frame of your veranda or canopy, offering a sleek, modern finish. Perfect for entertaining, relaxing, or added security; it provides soft, even illumination while remaining energy-efficient and low-maintenance. Customisable options include dimmable lights, warm or cool tones, and smart controls. Available for Simplicity 6, 16, 35 systems, it enhances both the style and functionality of your outdoor space.

## LED Spotlights

Our integrated LED spotlights are discreetly recessed into your veranda or canopy, providing a sleek, modern finish. Ideal for evening entertaining, relaxing, or added security, they deliver soft, even light while being energy-efficient, long-lasting, and low-maintenance. Customisable with dimmable settings, warm or cool tones, and remote control, they're available for Simplicity Xtra and Xtra Plus systems, combining style, function, and durability.

## Privacy Screens

Our aluminium privacy screens offer modern style with practical benefits, providing privacy, wind protection, and security for verandas, patios, and outdoor spaces. Built to withstand the UK climate and requiring minimal maintenance, they are available in RAL 7016 Anthracite Grey, RAL 9016 Traffic White, RAL 9005 Jet Black, or bespoke colours, seamlessly integrating with Lurano structures for year-round comfort and style.

## Goal Posts

Manufactured from durable, weather-resistant aluminium, our goal post system provides essential structural support for larger verandas, canopies, and glass rooms. It enhances load-bearing capacity, allows open-sided designs, and integrates seamlessly with all Lurano structures. Low-maintenance and long-lasting, it combines strength, style, and reliability for both residential and commercial applications.

**Available for: Simplicity 6, 16, 35, Xtra and Xtra Plus**

## Glazing

Our premium glazing combines strength and style. Toughened glass (6mm, clear or tinted) or structured polycarbonate (16mm/35mm) for shatter resistance, UV protection, and weather durability. Self-cleaning and Heatshield options keep your space pristine, while all panels offer minimal maintenance and a sleek, high-quality finish that enhances any outdoor area.

## Pleated Under Blind

Discreetly fitted beneath your veranda or glass room, these high-performance blinds soften sunlight, reduce heat, and extend the usability of your outdoor space. Available in Grey, Light Grey, Black, Cream, and White, with light-filtering or blackout fabrics, they're manually operated and custom-fitted for a seamless, elegant finish.

## Vertical Roller Blind

Enhance your veranda, canopy, glass room, or carport with our Electric Vertical Roller Blinds. Made from durable, fire-resistant Soltils 92 Screen Material, they offer smooth remote-controlled operation, sun and heat regulation, and lasting colour with a 5-year guarantee. Available in standard and custom colours, these blinds provide a sleek, functional, and stylish finish to any outdoor space.

- Supplied flat-packed

# CUSTOMER REVIEWS

**Our customers love the Lurano experience - from sleek, durable designs to exceptional service. Trusted, admired, and highly recommended, Lurano delivers outdoor living solutions that truly impress.**

“

“I recently purchased my decking materials, and I couldn't be happier with the entire experience. The process was incredibly straightforward from start to finish – I ordered directly from their website, which was easy to navigate, and my decking was delivered within a week.

The quality of the materials is excellent, and now that it's installed, it has completely transformed my garden.

I highly recommend Lurano for anyone looking for top-quality decking and a hassle-free buying experience!”

“

“You gave me excellent service as you handled all ordering, delivery and erecting details including my site survey with a full set of drawings of the construction of the carport.

Everything was delivered on the day and time stated.

The company specified for the for the installation were very professional on removal of the old collapsing existing carport and erecting the new one.

I'm 100% pleased with your product and service which I will totally recommend.”

“

“Extremely pleased with the service I received. The team guided me through the design and installation of my Simplicity 6 Veranda. Delivery and installation went to plan with no problems. Advice was always only a telephone call away even for the smallest of queries. The installation and patio area were only completed late summer so looking forward to making advantage this year. Thanks to all.”

“

“Excellent company to deal with no hard sell pressure plenty of help given. Pleased with our product. Would definitely recommend. Purchased In November.”

“

“Hope you're well, thanks for the wonderful customer service you provided when I made contact to enquire about veranda. I began this journey of obtaining a veranda with one of your competitors and when I found you I felt at home. I did not know that your competitor was very dangerous with regards to what it was offering pricewise until I met your company.

You dazzled me with your excellent customer service, suggestions that was not biased but with me the customer in mind.”

“

“The canopy has now been up for a couple of years now, we have had some fearsome storms and it's absolutely held its own, very pleased!”

“

“Great quality materials perfectly engineered.

Very clear fitting instructions, built up in one day. Would definitely recommend and use again.”
